Gina M. Raimondo
Governor

EXECUTIVE ORDER

18-09

December 28, 2018

CREATING THE RHODE ISLAND COMPLETE COUNT COMMITTEE

WHEREAS, Article I, Section 2 of the United State Constitution requires an enumeration of the population every ten years to apportion congressional representation among the states; and

WHEREAS, pursuant to Section 141 of Title 13 of the United States Code, the next federal decennial census of the population will be taken on April 1, 2020; and

WHEREAS, Providence County, Rhode Island has hosted the only 2018 End-to-End Census Test, whereby the Census Bureau is researching and testing most major components of the 2020 census; and

WHEREAS, the 2020 Census will be used for Congressional reapportionment, redistricting, and for legislative redistricting, such that having a complete and accurate count of Rhode Island's population is essential for the fair representation of the citizenry in the U.S. Congress, the General Assembly, and the legislative bodies of local government; and

WHEREAS, the results of the census are the foundation for many important decisions made by federal and state government, including the disbursement of billions of dollars of federal funds to states based on population; and

WHEREAS, Rhode Island and its local jurisdictions utilize census data to provide descriptions of the social and economic characteristics of geographic areas and population groups to determine those areas and groups' funding needs for infrastructure projects, economic development programs, job training, schools, and other activities; and

WHEREAS, it is vitally important for Rhode Island to do everything it can to ensure that every Rhode Islander is counted once, only once, and in the right place in the upcoming census; and

WHEREAS, the U.S. Census Bureau identifies particular groups of residents as "hard-to-count" populations that have traditionally been undercounted in the decennial census process. These include, but are not limited to:

1. Racial and ethnic minorities
2. Non-fluent English speakers
3. Lower-income persons
4. Homeless persons
5. Undocumented immigrants
6. Young mobile persons
7. Children
8. LGBTQ persons; and

WHEREAS, it is critically important that census outreach and education efforts focus on reaching these hard-to-count populations to ensure the results of the Census are as accurate as possible; and

WHEREAS, it will take the collaboration of community leaders, faith organizations, non-profit organizations, local government, legislative leaders and the Governor of the State of Rhode Island to raise public awareness of the importance of the census and to find ways to support the census efforts; and

WHEREAS, the U.S. Census Bureau recommends that each state create a State Complete Count Commission; and
